

AI internship in Private Equity (m/f/x)

Our opportunity

We are seeking a highly motivated and talented individual with a strong analytical mindset and demonstrated interest in artificial intelligence for an internship focused on AI-driven innovation within our private equity firm. During this internship, you will have the opportunity to (i) explore and implement cutting-edge AI tools to enhance Strada's operational and analytical capabilities, while (ii) gaining valuable exposure to the world of Private Equity investing.

More specifically, you will:

- Research, evaluate, and deploy the best AI-powered tools to optimize our investment and operational processes.
- Develop and refine AI agents that streamline key workflows within Strada, such as legal analysis, fundraising, business analysis, HR, and office management.
- Work closely with our investment team to integrate AI solutions, enhancing efficiency and data-driven decision-making.
- Leverage AI to automate routine yet critical tasks, freeing up our professionals to focus on higher-value activities.

This internship will enable you to work alongside our investment team of seasoned professionals, sharing valuable enhancements to their activities and receiving exposure and insights to all steps of the investment process.

What's in it for you?

- Hands-on experience in applying AI to real-world private equity challenges.
- Opportunity to work with the latest AI tools and technologies, with the freedom to experiment and innovate.
- Mentorship from seasoned investment professionals, as well as access to AI experts from our network.
- Fast-paced learning environment where you will receive ownership and responsibility from Day 1.
- Collaboration with a small, entrepreneurial team, working directly with the founding Partners.
- A fun and dynamic working environment in the center of Antwerp, with investments across Europe.
- Opportunity to contribute to strategic decision-making processes by leveraging AI-driven insights.

What are we looking for?

- Passionate about AI and its real-world applications in business and finance.
- Comfortable with testing, evaluating, and implementing AI tools. Ability to build models from scratch is considered as a plus.
- A strong problem-solver with a proactive mindset, eager to experiment with AI-driven solutions.

- A structured thinker with excellent analytical skills and attention to detail.
- A team player who can effectively communicate insights and recommendations.
- Fluent in English; additional European languages are a plus.

Practicalities:

Location: Antwerp. Occasional (foreign) travel might be required

Duration: Period of 3 months, flexibility to accommodate best suitable timing

Compensation: Competitive internship compensation

How to Apply: Please send us your CV via e-mail to nicholas.depoorter@strada-partners.com, clearly indicating your availability and motivation for applying in the cover e-mail.

Why Strada Partners?

Strada Partners is a European growth-oriented investment firm founded in 2022 by Bart Wouters and Matthias Vandepitte, who have a combined 25+ years of experience in private equity. The team's track record includes investments across many industries, with a particular focus on software, tech-enabled service businesses and healthcare.

We aim to build a concentrated portfolio of investments we can support over the longer term and provide with the necessary tools to compound growth on a pan-European level. We typically invest €5-50M of capital per investment and currently have a portfolio of 8 platforms.

We provide patient capital, with impatience to succeed. We are not afraid of the road less travelled.

Join us & Amaze us!
